A

Adduction, thumb, extensor carpi radialis brevis tendon transfer for—study of power pinch (Smith), 4
Aeromonas hydrophila wound infection of hand initially presenting as clostridial myonecrosis (Geller et al), 333
Allografts, refrigerated flexor tendon, clinical use of, to replace silicone rubber rod (Liu), 881
Amputated finger with serious venous congestion, successful revascularization of incompletely—case report (Fossati and Irigaray), 356
parts prior to replantation, storage of—experimental study with rabbit ears (VanGiesen et al), 60
Amputations, lateral or medial oblique, of thumb with exposure of bone, dorsal transposition flap for reconstruction of (Ogunro), 894
multidigit, of hand, selective finger transposition and primary metacarpal ray resection in (Rose and Buncke), 178
Anastomosis, microvascular, external ring technique for (Schenck et al), 105
Anatomic and radiographic comparative study: degenerative joint disease of trapezium (North and Eaton), 160
Anatomy, arterial, of human carpus. Part I: extraosseous vascularity (Gelberman et al), 367
Part II: intraosseous vascularity (Panagis et al), 375
Anomalies of intrinsic muscles in camptodactyly (McFarlane et al), 531
Anomalies—cont'd
upper extremity, case report and review of, in world literature—congenital hypoplastic thumb in Silver syndrome (Moss and Switzer), 480
Anomalous hands with cleft formanon between fourth and fifth digits (Kato et al), 909
"Antenna" procedure for "hook-nail" deformity (Atasoy et al), 55
Anthrax of hand: case report (Wylock et al), 576
AO arthrodesis in hand (Wright and McMurtry), 932
Aponeurosis pulley, palmar (Manske and Lesker), 259
Arterial anatomy of human carpus. Part I: extraosseous vascularity (Gelberman et al), 367
Part II: intraosseous vascularity (Panagis et al), 375
Arteriography, preoperative, effect of, on vascular endothelium and replant survival in rabbit ears (Sheppard and Dell), 145
Artery, ulnar, lacerations of: hemodynamic, ultrastructural, and compliance changes in dog (Gelberman et al), 306
Arthritis Committee, report of (Nalebuff), 682
rheumatoid, dorsal wrist synovectomy in—long-term study (Thirupathi et al), 848
medical considerations and management of (Ferlic et al), 662
radiologic evaluation of, by standard reference films (Larsen et al), 667
Arthrodesis, AO, in hand (Wright and McMurtry), 932
compression, of thumb (Ferlic et al), 207
Arthrography of wrist (Palmer et al), 15
Arthroplasty, implant, in rheumatoid hand and wrist: current state of art in United States (Beckenbaugh), 675
palmar, treatment of stiff swan-neck deformity (Scott and Boswick), 267

*January, pp 1-118; March, pp 119-234; May, pp 235-366; July, pp 367-506; September, pp 507-828; November, pp 829-976.

Arthroplasty—contd
perichondrial, in hand: case report (Wu and Johnson), 446
Avulsion(s), partial, of hand, microsurgical transfer of great toe to radius to provide prehension after (Furnas and Achauer), 453
flexor profundus, secondary to enchondroma of distal phalanx (Ogunro), 315
nail bed, treatment of, with split-thickness nail bed grafts (Shepard), 49
Axilla, burned, intraoperative brachial plexus injuries during reconstruction of (Law et al), 585

B

Benefits, costs, and risks of hand surgery (Chase), 644
Bibliography Committee, report of (Adams), 662
of surgery of hand (Adams), 661
Bier block, loss of hand and forearm following: case report (Luce and Mangubat), 280
Bite, dog, *Mycobacterium fortuitum* granulomatous synovitis caused by (Ariel et al), 342
Blade, modified 69, for tenolysis (McDonough and Stern), 610
Block(s), Bier, loss of hand and forearm following: case report (Luce and Mangubat), 280
intravascular quanethidine, quantitative oxygen measurements before and after (Sonneveld et al), 435
Blockade, prolonged continuous stellate ganglion, treatment of upper extremity reflex sympathetic dystrophy with (Linson et al), 153
Blood supply of flexor pollicis longus tendon (Azar et al), 471
Bone and Joint Injury Committee, report of (Dobyns), 690
osteocutaneous microvascular free flaps (Kleinert), 735
giant cell lesion of, of hand with particular emphasis on giant cell reparative granuloma (Bertheussen et al), 46
hamate, fracture of body of (Ogunro), 353
Book reviews, 226, 628, 955
Boston and Second International Congress of International Federation of Societies for Surgery of Hand (Smith), 637
Boutonnière deformity, traumatic, staged technique for repair of (Curtis et al), 167
Bowen's disease in multiple nail beds—case report (Strong), 329
Brachial plexus injuries, intraoperative, during reconstruction of burned axilla (Law et al), 585
Burn, circumferential finger, from dimethyl sulfoxide (DMSO) (Walker and Weinstein), 330

C

Camptodactyly, anomalies of intrinsic muscles in (McFarlane et al), 531
Carcinoma, metastatic bronchogenic, masquerading as felon (Rose and Wood), 325
Carotid injury and cerebral infarction in revascularization hand injury case (Argenta et al), 935
Carpal tunnel decompression in spite of normal electromyography (Grundberg), 348
Carpectomy, proximal row, for post-traumatic disorders of carpus (Neviaser), 301
Carpus, human, arterial anatomy of. Part I: extraosseous vascularity (Gelberman et al), 367
Part II: intraosseous vascularity (Panagis et al), 375
proximal row carpectomy for post-traumatic disorders of (Neviaser), 301
Cefamandole therapy in hand infections (Robson et al), 560
Cerebral palsy, spastic hand in, surgery of: report of Committee on Spastic Hand Evaluation (Zancolli et al), 766
Chemotherapy, toxic lesions of hand associated with (Seyfer and Solimando), 39
Chondrosarcoma of hand arising from asymptomatic benign solitary enchondroma of 40 years' duration (Wu et al), 317
with metastasis: review of literature and case report (Justis and Dart), 320
Cleft formation between fourth and fifth digits, anomalous hands with (Kato et al), 909
hand and central polydactyly in identical twins: case report (Manske), 906
Coccidioides immitis, flexor tenosynovitis caused by (Gropper et al), 344
Committee, Bone and Joint Injury, report of (Dobyns), 690
Congenital Malformations, report of (Lamb), 702
Evaluation and Treatment of Dupuytren's Disease, report of (Hueston), 708
Clinical Result in Peripheral Nerve Injury, report of (Omer), 754
Impairment Evaluation, report of (Hagert), 722
Microsurgical, report of (Buncke), 727
Nomenclature, report of: guide to terminology for hand surgery (Barton), 814
Paralytic Diseases Including Leprosy, report of (Pulvertaft), 745
research, report of (Leffert), 659
Spastic Hand Evaluation, report of: surgery of spastic hand in cerebral palsy (Zancolli et al), 766
Spinal Cord Injuries, report of (Moberg), 772
Tendon Injuries, report of (Kleinert and Verdan), 794
War Injury, report of: care of war injuries of hand and upper extremity (Burkhalter), 810
Compression and entrapment neuropathies of upper extremity (Eversmann), 759
deep branch of ulnar nerve—case report (Stern and Vice), 72
Conduction velocity, nerve, microscopic, and electron microscopy studies comparing repaired adult and baby monkey median nerves (Almquist et al), 406
Congenital limb malformation, classification for (Swanson et al), 693
Congestion, serious venous, successful revascularization of incompletely amputated finger with—case report (Fossati and Irigaray), 356
Congress, Federation, and First International Journal Supplement (Swanson), 640
Second International, of International Federation of Societies for Surgery of Hand, Boston and (Smith), 637
welcome to attendees (Chase), 637
Contracture, extension, of wrist: case report (Kavanagh and Linscheid), 946
factitious extension, of elbow: case report (Vetter et al), 277
Costs, risks, and benefits of hand surgery (Chase), 644

D

Decompression, carpal tunnel, in spite of normal electromyography (Grundberg), 348
Deformity, "hook-nail," "antenna" procedure for (Atasoy et al), 55
staged technique for repair of traumatic boutonnière (Curtis et al), 167
stiff swan-neck, palmar arthroplasty for treatment of (Scott and Boswick), 267
Degenerative joint disease of trapezium: comparative radiographic and anatomic study (North and Eaton), 160

Delegates and officers to Federation, 643
Dexon and nylon sutures in experimental microvascular surgery—quantitative comparison, short-term effects (Cook et al), 299
Digital replantation, clinical study of order and speed of sensory recovery after (Yamauchi et al), 545
sensory patterns, variations in: study of ulnar nerve–median nerve palmar communicating branch (Meals and Shaner), 411
Digits, congenital bilateral trigger, in twins (Neu and Murray), 350
fourth and fifth, anomalous hands with cleft formation between (Kato et al), 909
growth plates in, morphologic study of relationship of collateral ligaments to (Bogumill), 74
in children, osteocartilaginous lesions of: experience with 10 cases (Moore et al), 309
Dimelia, ulnar (Gropper), 487
Dimethyl sulfoxide (DMSO), circumferential finger burn from (Walker and Weinstein), 330
Disease(s), bilateral Kienböck's (Morgan and McCue), 928
Bowen's, in multiple nail beds—case report (Strong), 329
calcium pyrophosphate dihydrate crystal deposition, hand and wrist involvement in (Resnik et al), 856
degenerative joint, of trapezium: comparative radiographic and anatomic study (North and Eaton), 160
Dupuytren's, current status of (McFarlane), 703
Committee for Evaluation and Treatment of, report of (Hueston), 708
Paralytic, Including Leprosy, Committee on, report of (Pulvertaft), 745
Dislocation(s) and subluxation of distal radioulnar joint role of radiography and computerized tomography in diagnosis of (Mino et al), 23
fractures of wrist and hand, then and now (Dobyns et al), 687
palmar, of trapezoid—case report (Rhoades and Reckling), 85
trapezoid—case report (Goodman and Shankman), 606
Disorders, other upper extremity, and hand trauma, development of treatment centers for (Tubiana et al), 654
Distraction-lengthening principle, treatment of monodactyly by: case report (Baruch and Hecht), 604
DMSO (dimethyl sulfoxide), circumferential finger burn from (Walker and Weinstein), 330
Donor, highly suitable autograft, for digital nerve, lateral antebrachial cutaneous nerve as (Tank et al), 942
Doxorubicin hydrochloride extravasation injuries extensive, management of (Linder et al), 32
induced extravasation necrosis, identification of involved tissue during surgical treatment of (Cohen et al), 43
Dupuytren's contracture, pathogenesis of: contractile mechanisms of myofibroblasts (Badalamente et al), 235
disease, current status of (McFarlane), 703
Committee for Evaluation and Treatment of, report of (Hueston), 708
Dystrophy, upper extremity reflex sympathetic, treatment of, with prolonged continuous stellate ganglion blockade (Linson et al), 153

E

Ears, rabbit, effect of preoperative arteriography on vascular endothelium and replant survival in (Sheppard and Dell), 145
Education in hand surgery (Smith), 655
of the surgical specialist (Smith), 509 (Presidential address)
Eikenella corrodens in hand infections (Goldstein et al), 563
Elbow, factitious extension contracture of: case report (Vetter et al), 277
Elbow—cont'd
flexion, restoration of, by pectoralis major and pectoralis minor transfer (Tsai et al), 186
Electromyography, normal, carpal tunnel decompression in spite of (Grundberg), 348
Electron microscopy, nerve conduction velocity, and microscopic studies comparing repaired adult and baby monkey median nerves (Almquist et al), 406
Enchondroma, asymptomatic benign solitary, of 40 years' duration, chondrosarcoma of hand arising from (Wu et al), 317
distal phalanx, avulsion of flexor profundus secondary to (Ogunro), 315
Endothelium, vascular, and replant survival in rabbit ears, effect of preoperative arteriography on (Sheppard and Dell), 145
Entrapment and compression neuropathies of upper extremity (Eversmann), 759
syndrome familial radial nerve: case report and literature review (Lubahn and Lister), 297
Extensor digitorum brevis manus: report on 38 cases and review of literature (Gama), 578
Extravasation injuries, extensive doxorubicin hydrochloride, management of (Linder et al), 32
necrosis, doxorubicin-induced, identification of involved tissue during surgical treatment of (Cohen et al), 43
Extremities, experimentally replanted, early histopathologic changes in (Press et al), 549

F

Fascicle identification, electrical, as adjunct to nerve repair (Gaul), 289
Federation, Congress, and First International Journal Supplement (Swanson), 640
delegates and officers to, 643
Felon, metastatic bronchogenic carcinoma masquerading as (Rose and Wood), 325
Fibrinolysis, intravascular, of small-vessel thrombosis (Cooney et al), 131
Films, standard reference, radiologic evaluation of rheumatoid arthritis by (Larsen et al), 667
fingernail on palmar aspect of—circumferential fingernail (Kalisman and Kleinert), 58
free total toe phalanx transplant to: case report (Vercauteren and Van Vynckt), 336
incompletely amputated, with serious venous congestion, successful revascularization of—case report (Fossati, Irigaray), 356
index, pollicization of, for reconstruction of congenitally hypoplastic or absent thumb (Egloff and Verdan), 839
symmetric hyperphalangism of, in palatodigital syndrome: case report (Klug et al), 599
Finger(s) burn, circumferential, from dimethyl sulfoxide (DMSO) (Walker and Weinstein), 330
painless osteoid osteoma of—report of three cases (Wiss and Reid), 914
transposition, selective, and primary metacarpal ray resection in multidigit amputations of hand (Rose and Buncke), 178
Fingernail, circumferential—fingernail on palmar aspect of finger (Kalisman and Kleinert), 58
injuries (Beasley), 784
Fingertip(s) reconstruction, use of lateral V-Y advancement flaps for (Shepard), 254
replantation of (Earle), 628 (Historical note)

Flap(s), dorsal transposition, for reconstruction of lateral or medial oblique amputations of thumb with exposure of bone (Ogunro), 894
extended palmar advancement (Dellon), 190
ischemic, effects of streptokinase on (Puckett et al), 101
lateral V-Y advancement, use of, for fingertip reconstruction (Shepard), 254
microvascular free, bone and osteocutaneous (Kleinert), 735
Subcommittee on, report of (Harii et al), 734
neurovascular cutaneous, for management of radiation-induced fingertip dermal necrosis (Stern et al), 88
Flexion, elbow, restoration of, by pectoralis major and pectoralis minor transfer (Tsai et al), 186
Flexor digitorum profundus indicus, accessory (Winkelman), 70
superficialis transfer, restoration of flexor pollicis longus function by (Schneider and Wiltshire), 98
pollicis longus, congenital malposition of—anatomy note (Blair and Buckwalter), 93
function, restoration of, by flexor digitorum superficialis transfer (Schneider and Wiltshire), 98
tendon, blood supply of (Azar et al), 471
profundus, avulsion of, secondary to enchondroma of distal phalanx (Ogunro), 315
superficialis tendon transfers to thumb—alternative to free tendon graft for treatment of chronic injuries within digital sheath (Posner), 876
tendon allografts, refrigerated, clinical use of, to replace silicone rubber rod (Liu), 881
hand, gouty involvement of (Primm and Allen), 863
reconstruction, staged (Hunter), 789
technique, an evaluation of the two-stage (LaSalle and Strickland), 263
repair, elongation of repair configuration following (Seradge), 182
tenosynovitis caused by *Coccidioides immitis* (Gropper et al), 344
Forceps, tendon perforating (Mennen), 950
Forearm and hand, lymphangioma of (Blair et al), 399
, loss of, following Bier block; case report (Luce and Mangubat), 280
Foreign body migration, nonsuppurative tenosynovitis secondary to (Merrell et al), 340
Fractures and dislocations of wrist and hand, then and now (Dobyns et al), 687
intra-articular metacarpal head (McElfresh and Dobyns), 383
body of hamate bone (Ogunro), 353
hook of hamate: report of six cases and suitability of computerized tomography (Egawa and Asai), 393
scaphoid impression; case report (Bennett and Bowers), 205
unusual, of scaphoid (Shestak and Ruby), 925
Function and sensibility, evaluation of, with microsurgical free tissue transfer of great toe to hand for thumb reconstruction (Poppen et al), 516
hand, evaluation of impairment of (Swanson et al), 709

G

Ganglion blockade, prolonged continuous stellate, treatment of upper extremity reflex sympathetic dystrophy with (Linson et al), 153
dorsal carpal, excision of, and wrist manipulation, rotatory subluxation of scaphoid after—case report (Crawford and Taleisnik), 921
Gouty involvement of flexor tendon in hand (Primm and Allen), 863
Grade III thumb hypoplasia, congenital, toe-to-thumb transfer in (Nyárárdy et al), 898
Grafts, allogeneic tendon, in vivo effects of various immunoreactive treatments on (Minami et al), 888
free nail bed for treatment of nail bed injuries of hand (Saito et al), 171
tendon, alternative to, for treatment of chronic injuries within digital sheath—flexor superficialis tendon transfers to thumb (Posner), 876
nerve, gentle passage of (Dellon and Mackinnon), 108
reverse dermal, nail bed repair and reconstruction by (Clayburgh et al), 594
split-thickness nail bed, treatment of nail bed avulsions with (Shepard), 49
Granuloma, giant cell reparative, giant cell lesion of bone of hand with particular emphasis on (Bertheussen et al), 46

H

Hamate bone, fracture of body of (Ogunro), 353
fracture of hook of; report of six cases and suitability of computerized tomography (Egawa and Asai), 393
Hand and forearm, loss of, following Bier block: case report (Luce and Mangubat), 280
wrist, Hoffman pelvic stabilization for injuries to (Crouch and Bennett), 211
infections, cefamandole therapy in (Robson et al), 560
Eikenella corrodens in (Goldstein et al), 563
established: controlled, prospective study (Stern et al), 553
Hemangiomas, subcutaneous, of hand (Palmieri), 201
Histology and sensibility after nerve repair, correlation of (Dellon and Munger), 871
Histopathologic changes, early, in experimentally replanted extremities (Press et al), 549
Hoffman pelvic stabilization for injuries to hand and wrist (Crouch and Bennett), 211
"Hook-nail" deformity, "antenna" procedure for (Atasoy et al), 55
Hook of hamate, fracture of: report of six cases and suitability of computerized tomography (Egawa and Asai), 393
Hyperphalangism, symmetric, of index finger in palatodigital syndrome: case report (Klug et al), 599
Hypoplasia, congenital grade III thumb, toe-to-thumb transfer in (Nyárárdy et al), 898

I

IFSSH (O'Brien), 1
(O'Brien), 639
Second International Congress, Boston and (Smith), 637
Imaging, dynamic radionuclide, as means of evaluating vascular perfusion of upper extremity: preliminary report (Koman et al), 424
Impairment Evaluation Committee, report of (Hagert), 722
hand function, evaluation of (Swanson et al), 709
Implant arthroplasty in rheumatoid hand and wrist: current state of art in United States (Beckenbaugh), 675
Index finger, symmetric hyperphalangism of, in palatodigital syndrome: case report (Klug et al), 599
Infarction, cerebral, and carotid injury in revascularization hand injury case (Argenta et al), 935
Infection(s), acute suppurative hand, pyoderma gangrenosum presenting as: case report (Ferlic), 573
Aeromonas hydrophila wound, of hand initially presenting as clostridial myonecrosis (Geller et al), 333
established hand: controlled, prospective study (Stern et al), 553
hand (Kilgore), 723
cefamandole therapy in (Robson et al), 560
Eikenella corrodens in (Goldstein et al), 563

Infection(s)—cont'd
Mycobacterium marinum, of hand involving deep structures (Chow et al), 568
Injury(ies), acute thermal, to upper extremity, management of (Madden and Enna), 785
carotid, and cerebral infarction in revascularization hand injury case (Argenta et al), 935
chronic, within digital sheath, alternative to free tendon graft for treatment of—flexor superficialis tendon transfers to thumb (Posner), 876
extensive doxorubicin hydrochloride extravasation, management of (Linder et al), 32
fingernail (Beasley), 784
intraoperative brachial plexus, during reconstruction of burned axilla (Law et al), 585
nail bed, of hand, free nail bed graft for treatment of (Saito et al), 171
Peripheral Nerve, Committee for Evaluation of Clinical Result in, report of (Omer), 754
Spinal Cord, Committee on, report of (Moberg), 772
Tendon, Committee on, report of (Kleinert and Verdan), 794
to hand and wrist Hoffman pelvic stabilization for (Crouch and Bennett), 211
war, of hand and upper extremity, care of: report of War Injury Committee (Burkhalter), 810
Instability patterns of wrist (Linscheid et al), 682

Nail bed avulsions, treatment of, with split-thickness nail bed grafts (Shepard), 49
with split-thickness nail bed grafts, treatment of (Shepard), 49
Nail bed(s) graft, free, for treatment of nail bed injuries of hand (Saito et al), 171
multiple, Bowen's disease in—case report (Strong), 329
repair and reconstruction by reverse dermal grafts (Clayburgh et al), 594
Necrosis, doxorubicin-induced extravasation, identification of involved tissue during surgical treatment of (Cohen et al), 43

Necrosis—cont'd
radiation-induced fingertip dermal, neurovascular cutaneous flaps for management of (Stern et al), 88
Nerve(s), bifid median, with three thenar branches—case report (Kornberg et al), 583
conduction velocity, microscopic, and electron microscopy studies comparing repaired adult and baby monkey median nerves (Almquist et al), 406
entrapment syndrome, familial radial: case report and literature review (Lubahn and Lister), 297
grafts, gentle passage of (Dellon and Mackinnon), 108
Injury, Peripheral, Committee for Evaluation of Clinical Result in, report of (Omer), 754
lateral antebrachial cutaneous, as highly suitable autograft donor for digital nerve (Tank et al), 942
rat sciatic, specificity of muscle reinnervation after epineurial and individual fascicular suture of (Brushart et al), 248
Nerve repair, correlation of histology and sensibility after (Dellon and Munger), 871
electrical fascicle identification as adjunct to (Gaul), 289
sympathetic, anatomic localization of, in hand (Morgan et al), 283
ulnar–median nerve palmar communicating branch, study of: variations in digital sensory patterns (Meals and Shaner), 411
Neurilemomas and neurofibromas of upper limb (Rinaldi), 590
Neurofibromas and neurilemomas of upper limb (Rinaldi), 590
Neuropathies, compression and entrapment, of upper extremity (Eversmann), 759
Nomenclature Committee, report of: guide to terminology for hand surgery (Barton), 814
Nylon and Dexon sutures in experimental microvascular surgery—quantitative comparison, the short-term effects of (Cook et al), 299

O

Officers and delegates to Federation, 643
Osteoarthritis in hand (Swanson and Swanson), 669
Osteocutaneous microvascular and bone free flaps (Kleinert), 735
Osteoma, painless osteoid, of fingers—report of three cases (Wiss and Reid), 914
Oxygen measurements, quantitative, before and after intravascular guanethidine blocks (Sonneveld et al), 435
transcutaneous, in replantation surgery and free tissue transfer, clinical application of (Smith et al), 139

P

Pain: general review and selected problems affecting upper extremity (Goldner), 740
Palatodigital syndrome, symmetric hyperphalangism of index finger in: case report (Klug et al), 599
Palmar advancement flap, extended (Dellon), 190
aponeurosis pulley (Manske and Lesker), 259
arthroplasty for treatment of stiff swan-neck deformity (Scott and Boswick), 267
dislocation of trapezoid—case report (Rhoades and Reckling), 85 (Goodman and Shankman), 606
midline approach, treatment of pseudoarthrosis of distal phalanx with (Itoh et al), 80
Paralysis, thenar, postural changes in, and their significance (Srinivasan), 194
Pathogenesis of Dupuytren's contracture: contractile mechanisms of myofibroblasts (Badalamente et al), 235
Patterns, digital sensory, variations in: study of ulnar nerve–median nerve palmar communicating branch (Meals and Shaner), 411
instability, of wrist (Linscheid et al), 682
Pectoralis major and pectoralis minor transfer, restoration of elbow flexion by (Tsai et al), 186
minor and pectoralis major transfer, restoration of elbow flexion by (Tsai et al), 186
Pelvic stabilization, Hoffman, for injuries to hand and wrist (Crouch and Bennett), 211
Perfusion, vascular, of upper extremity, dynamic radionuclide imaging as means of evaluating: preliminary report (Koman et al), 424
Perichondrial arthroplasty in hand: case report (Wu and Johnson), 446
Phalanx, distal, avulsion of flexor profundus secondary to enchondroma of (Ogunro), 315
form, function, and evolution of (Shrewsbury and Johnson), 475
treatment of pseudoarthrosis of, with palmar midline approach (Itoh et al), 80
transplant free total toe, to finger: case report (Vercauteren and Van Vynckt), 336
Pierre Robin syndrome, hand in (Wood and Sandlin), 273
Pinch, power, study of—extensor carpi radialis brevis tendon transfer for thumb adduction (Smith), 4
Plantaris tendon, surgical availability of (Harvey et al), 243
Plates, growth, in digits, morphologic study of relationship of collateral ligaments to (Bogumill), 74
Pollicization of index finger for reconstruction of congenitally hypoplastic or absent thumb (Egloff and Verdan), 839
Polydactyly, central, and cleft hand, in identical twins: case report (Manske), 906
Prehension after partial avulsion of hand, microsurgical transfer of great toe to radius to provide (Furnas and Achauer), 453
Prevention of trauma: cooperative effort (Blair and Allard), 649
Prostheses, esthetic hand (Pillet), 778
Prosthetics in upper extremity (Lamb), 774
Pseudoarthrosis of distal phalanx, treatment of, with palmar midline approach (Itoh et al), 80
Pseudosynovial sheath—its characteristics in primate model (Hunter et al), 461
Pulley, palmar aponeurosis (Manske and Lesker), 259
Pyoderma gangrenosum presenting as acute suppurative hand infection: case report (Ferlic), 573

Q

Quadriplegia, upper limb reconstruction in: functional assessment and proposed treatment modifications (Hentz et al), 119
Quanethidine blocks, intravascular, quantitative oxygen measurements before and after (Sonneveld et al), 435

R

Radial tunnel syndrome, double-entrapment (Sponseller and Engber), 420
spectrum of clinical presentations (Moss and Switzer), 414
Radiation-induced fingertip dermal necrosis, neurovascular cutaneous flaps for management of (Stern et al), 88
Radiographic and anatomic comparative study: degenerative joint disease of trapezium (North and Eaton), 160
Radiography and computerized tomography, role of, in diagnosis of subluxation and dislocation of distal radioulnar joint (Mino et al), 23
Radiologic evaluation of rheumatoid arthritis by standard reference films (Larsen et al), 667

Radionuclide imaging, dynamic, as means of evaluating vascular perfusion of upper extremity: preliminary report (Koman et al), 424
Radioulnar synostosis, congenital (Simmons et al), 829
Reconstruction and repair, nail bed, by reverse dermal grafts (Clayburgh et al), 594
fingertip, use of lateral V-Y advancement flaps for (Shepard), 254
burned axilla, intraoperative brachial plexus injuries during (Law et al), 585
congenitally hypoplastic or absent thumb, pollicization of index finger for (Egloff and Verdan), 839
lateral or medial oblique amputations of thumb with exposure of bone, dorsal transposition flap for (Ogunro), 894
metacarpophalangeal joint with autogenous metatarsal (Menon), 443
staged flexor tendon (Hunter), 789
technique, two-stage flexor tendon, evaluation of (LaSalle and Strickland), 263
thumb, evaluation of sensibility and function with microsurgical free tissue transfer of great toe to hand for (Poppen et al), 516
upper limb, in quadriplegia: functional assessment and proposed treatment modifications (Hentz et al), 119
Reinnervation, muscle, specificity of, after epineurial and individual fascicular suture of rat sciatic nerve (Brushart et al), 248
Repair and reconstruction, nail bed, by reverse dermal grafts (Clayburgh et al), 594
flexor tendon, elongation of repair configuration following (Seradge), 182
nerve, correlation of histology and sensibility after (Dellon and Munger), 871
Replantation, digital, clinical study of order and speed of sensory recovery after (Yamauchi et al), 545
finger tips (Earle), 628 (Historical note)
storage of amputated parts prior to—experimental study with rabbit ears (VanGiesen et al), 60
Subcommittee on, report of (Tamai et al), 730
surgery and free tissue transfer, clinical application of transcutaneous oxygen measurements in (Smith et al), 139
Replant survival in rabbit ears, effect of preoperative arteriography on vascular endothelium and (Sheppard and Dell), 145
to, or not to replant? That is not question (Urbaniak), 507
Research, report of the Committee on (Leffert), 659
Resection, primary metacarpal ray, and selective finger transposition in multidigit amputations of hand (Rose and Buncke), 178
Restoration of elbow flexion by pectoralis major and pectoralis minor transfer (Tsai et al), 186
Revascularization hand injury case, carotid injury and cerebral infarction in (Argenta et al), 935
successful, of incompletely amputated finger with serious venous congestion—case report (Fossati and Irigaray), 356
Rheumatoid arthritis, medical considerations and management of (Ferlic et al), 662
radiologic evaluation of, by standard reference films (Larsen et al), 667
hand and wrist, implant arthroplasty in: current state of art in United States (Beckenbaugh), 675
surgery—update (Nalebuff), 678
Risks, costs, and benefits of hand surgery (Chase), 644
Rod, silicone rubber, clinical use of refrigerated flexor tendon allografts to replace (Liu), 881

S

Sarcoidosis of hand—report of two cases (Landi et al), 197
Sarcoidosis—cont'd
upper extremity: case presentation and literature review (Adelaar), 492
Scaphoid impression fracture: case report (Bennett and Bowers), 205
rotatory subluxation of, after excision of dorsal carpal ganglion and wrist manipulation—case report (Crawford and Taleisnik), 921
unusual fracture of (Shestak and Ruby), 925
Sciatic nerve, rat, specificity of muscle reinnervation after epineurial and individual fascicular suture of (Brushart et al), 248
Second International Congress of International Federation of Societies for Surgery of Hand, Boston and (Smith), 637
welcome to attendees (Chase), 637
Sensation, functional, in hand, evaluation of (Dellon and Kallman), 865
Sensibility and function, evaluation of, with microsurgical free tissue transfer of great toe to hand for thumb reconstruction (Poppen et al), 516
histology after nerve repair, correlation of (Dellon and Munger), 871
Sensory patterns, digital, variations in: study of ulnar nerve–median nerve palmar communicating branch (Meals and Shaner), 411
recovery after digital replantation, clinical study of order and speed of (Yamauchi et al), 545
Sheath, digital, alternative to the free tendon graft for treatment of chronic injuries within flexor superficialis tendon transfers to thumb (Posner), 876
pseudosynovial—its characteristics in primate model (Hunter et al), 461
Silicone rubber rod, clinical use of refrigerated flexor tendon allografts to replace (Liu), 881
Silver syndrome, congenital hypoplastic thumb in—case report and review of upper extremity anomalies in world literature (Moss and Switzer), 480
Spastic hand in cerebral palsy, surgery of: report of Committee on Spastic Hand Evaluation (Zancolli et al), 766
Specialist, surgical, education of (Smith), 509 (Presidential address)
Spinal Cord Injuries, Committee on, report of (Moberg), 772
Stabilization, Hoffman pelvic, for injuries to hand and wrist (Crouch and Bennett), 211
Stellate ganglion blockade, prolonged continuous, treatment of upper extremity reflex sympathetic dystrophy with (Linson et al), 153
Storage of amputated parts prior to replantation— experimental study with rabbit ears (VanGiesen et al), 60
Streptokinase, effects of, on ischemic flaps (Puckett et al), 101
Subcommittee on Microvascular Flaps, report of (Harii et al), 734
Muscle Transplantation, report of (Manktelow and Ikuta), 733
Neurovascular Island Transplants, report of: toe-to-hand microsurgical transfers (Daniller and O'Brien), 738
Replantation, report of (Tamai et al), 730
Subluxation and dislocation of distal radioulnar joint, role of radiography and computerized tomography in diagnosis of (Mino et al), 23
rotatory, of scaphoid after excision of dorsal carpal ganglion and wrist manipulation—case report (Crawford and Taleisnik), 921
Supplement, First International Journal (Flatt), 637
Federation, and Congress (Swanson), 640
Surgery, experimental microvascular, short-term effects of Dexon and nylon sutures in—quantitative comparison (Cook et al), 299

Surgical treatment of doxorubicin-induced extravasation necrosis, identification of involved tissue during (Cohen et al), 43
Sutures, Dexon and nylon, short-term effects of, in experimental microvascular surgery—quantitative comparison (Cook et al), 299
epineurial and individual fascicular, of the rat sciatic nerve, specificity of muscle reinnervation after (Brushart et al), 248
Swan-neck deformity, stiff, palmar arthroplasty for treatment of (Scott and Boswick), 267
Sympathetic nerves in hand, anatomic localization of (Morgan et al), 283
Syndrome, double-entrapment radial tunnel (Sponseller and Engber), 420
familial radial nerve entrapment: case report and literature review (Lubahn and Lister), 297
palatodigital, symmetric hyperphalangism of index finger in: case report (Klug et al), 599
Pierre Robin, hand in (Wood and Sandlin), 273
quadrilateral space (Cahill and Palmer), 65
radial tunnel: spectrum of clinical presentations (Moss and Switzer), 414
Silver, congenital hypoplastic thumb in—case report and review of upper extremity anomalies in world literature (Moss and Switzer), 480
Synovectomy, dorsal wrist, in rheumatoid arthritis—long-term study (Thirupathi et al), 848
Synovitis, *Mycobacterium fortuitum* granulomatous, caused by dog bite (Ariel et al), 342
Synostosis, congenital radioulnar (Simmons et al), 829

T

Technique, external ring, for microvascular anastomosis (Schenck et al), 105
staged, for repair of traumatic boutonnière deformity (Curtis et al), 167
two-stage flexor tendon reconstruction, evaluation of (LaSalle and Strickland), 263
Tendon allografts, refrigerated flexor, clinical use of, to replace silicone rod (Liu), 881
flexor, evaluation of two-stage reconstruction technique for (LaSalle and Strickland), 263
hand, gouty involvement of (Primm and Allen), 863
pollicis longus, blood supply of (Azar et al), 471
reconstruction, staged (Hunter), 789
grafts, allogeneic, in vivo effects of various immunoreactive treatments on (Minami et al), 888
Injuries, Committee on, report of (Kleinert and Verdan), 794
perforating forceps (Mennen), 950
plantaris, surgical availability of (Harvey et al), 243
reconstruction, staged flexor (Hunter), 789
repair, elongation of the repair configuration following flexor (Seradge), 182
transfer(s), extensor carpi radialis brevis, for thumb adduction—study of power pinch (Smith), 4
flexor superficialis, to thumb—alternative to free tendon graft for treatment of chronic injuries within digital sheath (Posner), 876
hand surgery (Riordan), 748
Tenolysis, modified 69 blade for (McDonough and Stern), 610
Tenosynovitis, flexor, caused by *Coccidioides immitis* (Gropper et al), 344
nonsuppurative, secondary to foreign body migration (Merrell et al), 340
Terminology for hand surgery, guide to: report of Nomenclature Committee (Barton), 814
Thenar branches, three, bifid median nerve with—case report (Kornberg et al), 583
paralysis, postural changes in, and their significance (Srinivasan), 194
Thermal injuries, acute, to upper extremity, management of (Madden and Enna), 785
Thrombosis, small-vessel, intravascular fibrinolysis of (Cooney et al), 131
Thumb adduction, extensor carpi radialis brevis tendon transfer for—study of power pinch (Smith), 4
compression arthrodesis of (Ferlic et al), 207
congenital hypoplastic, in Silver syndrome—case report and review of upper extremity anomalies in world literature (Moss and Switzer), 480
or absent, pollicization of index finger for reconstruction of (Egloff and Verdan), 839
flexor superficialis tendon transfers to—alternative to free tendon graft for treatment of chronic injuries within the digital sheath (Posner), 876
hypoplasia, congenital grade III, toe-to-thumb transfer in (Nyárády et al), 898
reconstruction, evaluation of sensibility and function with microsurgical free tissue transfer of great toe to hand for (Poppen et al), 516
with exposure of bone, dorsal transposition flap for reconstruction of lateral or medial oblique amputations of (Ogunro), 894
Tissue, involved, identification of, during surgical treatment of doxorubicin-induced extravasation necrosis (Cohen et al), 43
replacement, soft, for hand, principles of (Beasley), 781
transfer, free, clinical application of transcutaneous oxygen measurements in replantation surgery and (Smith et al), 139
microsurgical free, of great toe to hand for thumb reconstruction, evaluation of sensibility and function with (Poppen et al), 516
Toe phalanx transplant, free total, to finger: case report (Vercauteren and Van Vynckt), 336
Tomography, computerized, and radiography, role of, in diagnosis of subluxation and dislocation of distal radioulnar joint (Mino et al), 23
fracture of hook of hamate: report of six cases and suitability of computerized (Egawa and Asai), 393
Tourniquet, double, with linked mercury manometers for hand surgery (Neimkin and Smith), 938
in surgery of hand, considerations on use of (Tajima), 799
Transfer(s), by pectoralis major and pectoralis minor, restoration of elbow flexion by (Tsai et al), 186
extensor carpi radialis brevis tendon, for thumb adduction—study of power pinch (Smith), 4
flexor digitorum superficialis, restoration of flexor pollicis longus function by (Schneider and Wiltshire), 98
superficialis tendon, to thumb—alternative to free tendon graft for treatment of chronic injuries within digital sheath (Posner), 876
free tissue, clinical application of transcutaneous oxygen measurements in replantation surgery and (Smith et al), 139
microsurgical free tissue, of great toe to hand for thumb reconstruction, evaluation of sensibility and function with (Poppen et al), 516
of great toe to radius to provide prehension after partial avulsion of hand (Furnas and Achauer), 453

Transfer(s)—cont'd
successful second toe-to-hand, keys to: review of 30 cases (Wang), 902
tendon, in hand surgery (Riordan), 748
toe-to-hand microsurgical: report of the Subcommittee on Neurovascular Island Transplants (Daniller and O'Brien), 738
toe-to-thumb, in congenital grade III thumb hypoplasia (Nyárády et al), 898
Transplant, free total toe phalanx, to finger: case report (Vercauteren and Van Vynckt), 336
Neurovascular Island, Subcommittee on, report of: toe-to-hand microsurgical transfers (Daniller and O'Brien), 738
Transplantation, Muscle, Subcommittee on, report of (Manktelow and Ikuta), 733
Transposition flap, dorsal, for reconstruction of lateral or medial oblique amputations of thumb with exposure of bone (Ogunro), 894
selective finger, and primary metacarpal ray resection in multidigit amputations of hand (Rose and Buncke), 178
Trapezium, degenerative joint disease of: comparative radiographs and anatomic study (North and Eaton), 160
Trapezoid, palmar dislocation of—case report (Rhoades and Reckling), 85
(Goodman and Shankman), 606
Trauma, hand, and other upper extremity disorders, development of treatment centers for (Tubiana et al), 654
prevention of: cooperative effort (Blair and Allard), 649
Treatment(s) centers, development of, for hand trauma and other upper extremity disorders (Tubiana et al), 654
various immunoreactive, in vivo effects of, on allogeneic tendon grafts (Minami et al), 888
Trigger digits, congenital bilateral, in twins (Neu and Murray), 350
Tumor(s), desmoid, of hand—case report and literature review (Lee), 95
glomus, of wrist (Joseph and Posner), 918
hand (Schultz and Kearns), 803
Twins, identical, cleft hand and central polydactyly in: case report (Manske), 906

U

Ulnar dimelia (Gropper), 487
nerve, compression of deep branch of—case report (Stern and Vice), 72
Nerve—cont'd
variations in digital sensory patterns: a study of the ulnar nerve–median nerve palmar communicating branch (Meals and Shaner), 411
Upper extremity, general review and selected problems affecting: pain (Goldner), 740

V

Vascular perfusion of upper extremity, dynamic radionuclide imaging as means of evaluating: preliminary report (Koman et al), 424
Vascularity, extraosseous, part I: arterial anatomy of human carpus (Gelberman et al), 367
intraosseous, part II: arterial anatomy of human carpus (Panagis et al), 375
Velocity, nerve conduction, microscopic, and electron microscopy studies comparing repaired adult and baby monkey median nerves (Almquist et al), 406
Volkmann's ischemia (Sarokhan and Eaton), 806

W

War injuries of hand and upper extremity, care of: report of the War Injury Committee (Burkhalter), 810
Wrist and hand, fractures and dislocations of, then and now (Dobyns et al), 687
Hoffman pelvic stabilization for injuries to (Crouch and Bennett), 211
involvement in calcium pyrophosphate dihydrate crystal deposition disease (Resnik et al), 856
rheumatoid, implant arthroplasty in: current state of art in United States (Beckenbaugh), 675
Wrist, arthrography of (Palmer et al), 15
extension contracture of—case report (Kavanagh and Linscheid), 946
glomus tumors of (Joseph and Posner), 918
instability patterns of (Linscheid et al), 682
manipulation, rotatory subluxation of scaphoid after excision of dorsal carpal ganglion and—case report (Crawford and Taleisnik), 921
synovectomy, dorsal, in rheumatoid arthritis—long-term study (Thirupathi et al), 848
Wound infection, *Aeromonas hydrophila*, of hand initially presenting as clostridial myonecrosis (Geller et al), 333
